RunSite: Mantin Nippo

Hare: Ten Yuen Loong (Bandaraya)

Co-Hare: Lim See How and three Mantin Hashers

Mantin ooh dear, 60 km from K.L. and got to leave at 4.30 and weather was very very fine and surprise surprise traffic was very very smooth and decide to cruise along the Lekas H'way at 150 and suddenly a rush of boom on my right saw Kau Peng Yap speeding pass at break neck speed.

Reach runsite at 10 pass five and park on an abandon play field under the hot afternoon sun.

Promptly at 6, On Sec led the pack to the road and into the industrial estate for the first check leading to the foot of the Mantin mammoth hills overlooking the mountain road to Broga.

It took us sometime to break this check and quite a lot of the front pack was caught on the falsie up the hill. Paper was at laid at the bottom valley broken by Ah Wah and paper continue to climb uphill from thereon to the second, laid midway up the hill. From the grapevine Mantin Hasher Guest Lai-see broke this check and we continue to climb right to the top of the mountain. Running along the ridges and occasionally we have to squeeze amongst the scrubs to get through and once out into open the 3rd and final check was laid across the over

head pylon. This back check was broken by Hoi Loong Wong and Ah Kar and the downhill run was fast and furious given the dry weather condition.

FROG's was Ah Meng in at 7.40pm follow slightly later by Ah Har and Chai, while the middle and last pack was in at 8 and 8.30 respectively where the CCB song was heard.
